INTERNSHIP PROGRAMME CIRCULAR

Six-Month Professional Internship Programme | 2026–2027

CIRCULAR NO. **ALF/HR/INT/2026/001**	ISSUE DATE **23 October 2026**	INTERNSHIP DURATION **1 November 2026 – 30 April 2027**
ISSUED BY **Human Resources Department**	ADMINISTRATIVE OVERSIGHT **Head of Administration**	DOCUMENT STATUS **Final**

1 About the Internship Programme

ALAYAflux is an emerging technology initiative focused on improving access to education, healthcare and agricultural solutions through technology, computer science and artificial intelligence, particularly in developing countries and underserved communities.

The six-month internship programme is intended to provide participants with practical experience, professional development, research opportunities, collaborative project work and exposure to international working environments.

The programme emphasises:

- Practical, project-based learning.
- Professional integrity and accountability.
- Research, innovation and problem-solving.
- Interdisciplinary and international collaboration.
- Responsible use of technology and data.
- Corporate governance and regulatory awareness.
- Continuous learning and professional development.

The internship will be structured around each participant's assigned role, individual learning objectives and agreed deliverables.

2 Internship Duration

The programme will commence on 1 November 2026 and conclude on 30 April 2027, subject to formal approval and execution of the individual internship agreement.

The programme will consist of six phases.

I

NOVEMBER 2026

Phase I: Orientation and Foundation

- Introduction to ALAYAflux, its objectives and ongoing initiatives.
- Review of the assigned role and responsibilities.
- Introduction to workplace discipline, confidentiality and information security.
- Preparation of an individual learning plan.
- Establishment of performance objectives.

II

DECEMBER 2026

Phase II: Professional Learning and Research

- Role-specific training and research.
- Identification of relevant tools, technologies and professional practices.
- Commencement of mandatory certification programmes.
- Submission of an initial progress report.

III

JANUARY 2027

Phase III: Practical Implementation

- Participation in approved project activities.
- Completion of assigned tasks under appropriate supervision.
- Submission of practical work and documentation.
- Mid-term performance evaluation.

IV

FEBRUARY 2027

Phase IV: Project Development

- Continued project execution.
- Collaboration with other departments.
- Improvement of deliverables based on feedback.
- Documentation of progress and achievements.

V

MARCH 2027

Phase V: Performance Improvement

- Completion of outstanding assignments.
- Review of professional learning and certifications.
- Preparation of a project portfolio or work summary.
- Preliminary final-performance assessment.

VI

APRIL 2027

Phase VI: Final Evaluation and Completion

- Submission of final deliverables and reports.
- Completion of required assessments and learning activities.
- Verification of certification requirements.
- Final performance review.
- Determination of internship completion and certificate eligibility.
- Processing of the programme's stipend commitment in accordance with the individual agreement.

Specific deadlines and working arrangements will be communicated by the relevant supervisor.

3 Available Internship Functional Areas

Interns will be assigned responsibilities according to their qualifications, experience, interests and the organisation's requirements.

Potential internship tracks include:

A

Software Engineering and Deployment

- Software development and testing.
- Application and website development.
- Technical documentation.
- Deployment support and software maintenance.

B

Artificial Intelligence and Data Engineering

- AI-related research and experimentation.
- Data collection, preparation and quality assessment.
- Development and evaluation of data pipelines.
- Responsible AI and data documentation.

C

Cybersecurity and Project Evaluation

- Cybersecurity research and awareness.
- Security documentation and risk identification.
- Project evaluation and quality assessment.
- Information-security practices.

D

UI/UX and Visual Design

- User-interface design.
- User-experience research.
- Design systems and visual communication.
- Usability testing and design documentation.

E

Digital Marketing and Business Development

- Digital communication and marketing research.
- Content development and distribution.
- Market research and audience analysis.
- Business-development support.

F

Finance and Data Analytics

- Financial research and reporting support.
- Data analysis and visualisation.
- Budget documentation.
- Financial controls and record management.

G **Human Resources and Administration**

- HR documentation and coordination.
- Internship records and progress tracking.
- Administrative support.
- Internal communication and workflow coordination.

H **Company Secretary and Corporate Governance**

- Research into company incorporation and statutory compliance requirements.
- Maintenance of corporate documentation and governance records.
- Preparation and organisation of meeting agendas, minutes and resolutions under supervision.
- Research into applicable corporate laws and regulatory requirements.
- Coordination of compliance calendars and filing documentation.
- Assistance with contract records, confidentiality agreements and policy documentation.
- Research into governance requirements for potential international operations.

Important: This is a corporate-governance internship track. It does not authorise an intern to act as a statutory Company Secretary, provide regulated legal services or sign official documents unless the person is appropriately qualified and legally authorised.

Additional internship tracks may be introduced with appropriate approval.

4 Stipend and Financial Commitment

The programme's proposed stipend structure is as follows:

Particular	Amount
Monthly stipend rate	USD 100
Duration	6 months
Total guaranteed stipend commitment	USD 600

ALAYAflux intends to provide each eligible intern covered by an approved internship agreement with a total stipend of USD 600 for the six-month programme, calculated at USD 100 per month.

The stated funding commitment is intended to be met from company funds.

The individual internship agreement must specify the payment schedule, payment method, applicable currency-conversion arrangements, any lawful deductions and the treatment of early termination.

The programme's stated commitment is subject to formal company authorisation and execution of the applicable agreement. Before issuing an unconditional guarantee, the authorised company representative must approve the financial commitment.

Nothing in this section excludes any payment or employment entitlement required by applicable law.

5 Mandatory Professional Certifications

Every intern will be required to complete the following three designated learning programmes, subject to availability, eligibility and any approved alternative arrangements.

5.1 WIPO DL-101 — General Course on Intellectual Property

Official course catalogue:

https://welc.wipo.int/acc/index.jsf?lang=eng&page=courseCatalog.xhtml

Learning objectives:

- Understand the fundamentals of intellectual property.
- Develop awareness of copyright, trademarks, patents and related rights.
- Understand the importance of intellectual property in research, software and business.
- Apply responsible intellectual-property practices in assigned work.

Interns must complete the required course activities and submit available proof of completion.

5.2 AI, Justice and the Rule of Law — Oxford and UNESCO

Official information:

https://www.law.ox.ac.uk/content/news/faculty-law-co-creates-new-online-course-ai-justice-and-rule-law

Learning objectives:

- Understand responsible AI and relevant legal principles.
- Explore the relationship between AI, justice and human rights.
- Develop awareness of ethical and regulatory challenges associated with AI.
- Recognise the importance of accountability and responsible technology deployment.

Interns must complete the designated learning requirements and provide available evidence of completion.

5.3 Business Law — University of California, Santa Barbara, through Coursera

Official programme page:

https://www.coursera.org/specializations/business-law

Learning objectives:

- Develop an understanding of business-law fundamentals.
- Become familiar with contractual and commercial concepts.
- Understand selected legal issues affecting business operations.
- Improve awareness of business risks and regulatory responsibilities.

HR will specify the particular course or specialisation requirements before the programme begins.

> As platform fees and certificate eligibility may vary, the organisation must communicate any costs in advance. Participants must not be required to purchase a paid course without clear prior disclosure and an agreed payment arrangement.

5.4 Additional Role-Relevant Learning

Each intern must also complete at least one additional course or professional learning programme relevant to their assigned role, subject to approval by the department supervisor.

Examples include:

- Software engineering and programming.
- AI, machine learning and data science.
- Cybersecurity and privacy.
- UI/UX and digital design.
- Finance, accounting and analytics.

- Marketing and business development.
- Corporate governance, business law and compliance.

The learning plan should remain realistic and compatible with the intern's agreed workload.

Certificates must be genuine and verifiable. Falsification or misrepresentation of qualifications is prohibited.

6 Roles, Responsibilities and Reporting

Each intern will receive an individual role description identifying:

- Assigned department and functional area.
- Reporting supervisor.
- Responsibilities and deliverables.
- Expected working arrangements.
- Learning objectives and milestones.
- Evaluation criteria and reporting deadlines.

Interns must perform assigned tasks responsibly, maintain appropriate records and communicate delays or obstacles promptly.

> No intern may enter into contracts, make financial commitments, sign legal documents or represent ALAYAflux as an authorised legal or financial representative without specific written authority.

7 Performance Evaluation

Performance will be assessed throughout the programme using documented and role-appropriate criteria.

The proposed evaluation framework is:

Criterion	Weight
Quality and accuracy of work	25%
Role-specific skills and deliverables	20%
Reliability and deadline management	15%
Communication and collaboration	15%
Learning and certification progress	10%
Initiative and problem-solving	10%
Professional conduct and documentation	5%
Total	**100%**

Evaluation stages

Initial review Establish individual goals and identify training needs.	**Monthly review** Assess work quality, progress, communication and deadline management.
Mid-term review Provide structured feedback and identify areas for improvement.	**Final review** Assess the intern's overall performance, learning achievements, project contributions and professional conduct.

Interns should receive reasonable feedback and an opportunity to respond to significant performance concerns.

Evaluation must be based on documented evidence and consistent criteria rather than personal preference.

8 Internship Completion Certificate

An intern may be eligible for a Certificate of Internship Completion upon:

1. Completing the approved internship period, subject to the applicable agreement.
2. Submitting the required reports and project deliverables.
3. Meeting the agreed performance and participation requirements.
4. Completing mandatory learning requirements or obtaining an approved extension.
5. Completing the required handover and return of company property.
6. Satisfying applicable documentation and confidentiality obligations.

The certificate will state the actual internship period, assigned role or department and nature of the work performed.

The certificate will not be represented as an academic degree, statutory professional qualification or external accreditation.

Where an intern leaves early or cannot complete a requirement for a legitimate reason, HR may consider issuing a record of participation or partial completion, where appropriate.

9 Special Achiever Certificate

ALAYAflux may recognise interns who demonstrate outstanding performance, integrity, initiative and meaningful contributions.

Recognition may include:

- Special Achiever Certificate for exceptional performance.
- Recognition of outstanding project contributions.
- A professional recommendation based on documented work, where appropriate.
- Consideration for suitable future opportunities, subject to availability and organisational requirements.

Selection will be based on documented performance evaluations, quality of work, innovation, teamwork, professional conduct and achievement of agreed objectives.

The selection process will be overseen by designated supervisors, HR and Administration.

Recognition does not automatically guarantee employment, promotion, equity, profit-sharing or any additional financial benefit.

10 Code of Discipline and Professional Conduct

All interns must comply with the following standards.

10.1 Integrity and Honesty

- Provide accurate information in applications, reports and progress records.
- Do not falsify attendance, certificates, work outputs or qualifications.
- Disclose relevant conflicts of interest.

10.2 Attendance and Communication

- Follow agreed working arrangements and meeting schedules.
- Communicate absences, delays and significant obstacles promptly.
- Maintain respectful and professional communication.

10.3 Respectful Workplace

- Treat colleagues fairly, regardless of nationality, gender, background or experience.
- Harassment, discrimination, bullying, threats and retaliation are prohibited.
- Handle disagreements constructively.

10.4 Confidentiality and Data Protection

- Protect confidential company information, personal data and unpublished project materials.
- Use information only for authorised purposes.
- Do not disclose restricted information to unauthorised persons.
- Follow applicable data-protection requirements.

10.5 Cybersecurity and Responsible AI

- Use only authorised accounts, devices, systems and datasets.
- Do not attempt unauthorised access or security testing.
- Do not upload confidential information to external AI services without permission.
- Report suspected security incidents through the designated channel.
- Identify AI assistance where required by the applicable project or supervisor.

10.6 Intellectual Property

- Respect copyright, software licences, patents, trademarks and other intellectual-property rights.
- Properly document sources and third-party materials.
- Follow the individual agreement's provisions on ownership and permitted use of work created during the internship.

10.7 Professional Representation

- Do not issue official statements or make commitments on behalf of ALAYAflux without authorisation.
- Do not publish confidential internal documents or unapproved company claims.
- Use company branding and titles only as authorised.

10.8 Academic and Professional Honesty

- Do not plagiarise research, code, reports or other work.
- Submit original work and accurately acknowledge sources.
- Do not misrepresent course completion or professional experience.

11 Confidentiality and Information Security

Interns may be required to sign a separate confidentiality agreement.

All company documents, project information, access credentials and restricted records must be handled using authorised systems.

Interns must not retain, publish, transfer or disclose confidential information without permission.

At the end of the internship, interns must complete any required handover and return or securely delete company information in accordance with the agreement and applicable law.

> These obligations do not restrict lawful reporting of misconduct, exercise of statutory rights or disclosures protected by applicable law.

12 Breaches and Corrective Action

Concerns involving performance, discipline, confidentiality or policy compliance should be reported to HR or the designated administrative supervisor.

Depending on the circumstances and applicable law, corrective measures may include:

- Guidance and documented feedback.
- A performance-improvement plan.
- A formal warning.
- Temporary restriction of system access for legitimate security reasons.
- An impartial review of the reported incident.
- Termination of the internship where justified under the agreement and applicable law.

Interns should ordinarily be informed of significant concerns and given a reasonable opportunity to respond before an adverse decision is made, except where immediate protective action is necessary.

Retaliation against individuals who raise genuine concerns in good faith is prohibited.

ALAYA flux
From Thought to Reality

13 Termination and Early Withdrawal

The internship is scheduled to conclude on 30 April 2027.

Early withdrawal or termination will be handled in accordance with the individual internship agreement and applicable law.

The agreement must specify notice requirements, termination procedures, outstanding stipend payments, handover obligations and the treatment of incomplete work.

Earned stipend amounts and statutory entitlements must be handled in accordance with applicable law. A performance dispute must not automatically result in forfeiture of amounts legally owed.

14 Legal and Regulatory Compliance

The internship programme and individual agreements must comply with applicable laws and regulations.

Relevant requirements may include:

- Labour and internship legislation.
- Minimum-wage and stipend requirements.
- Tax and payment obligations.
- Data-protection and cybersecurity laws.
- Intellectual-property and contract law.
- Anti-discrimination and workplace conduct requirements.
- Cross-border work and work-authorisation rules, where applicable.
- Corporate governance and regulatory requirements.

The designation of a participant as an intern does not, by itself, determine their legal employment status.

The programme must be reviewed against the actual working arrangements, company status and applicable jurisdictions before formal issuance.

15 Individual Internship Agreement

Each selected participant must receive an individual agreement setting out the applicable terms, including:

- Identity of the contracting organisation.
- Internship role, duration and reporting arrangements.
- Duties, learning objectives and deliverables.
- Stipend and payment schedule.
- Performance evaluation and certification requirements.
- Confidentiality and intellectual-property provisions.
- Applicable policies and code of conduct.
- Termination, dispute resolution and governing law.

The internship will commence only after the required approvals and documentation have been completed.
